Description

As a Public User I want to see some grapichs so that I can see some statistics.

When I visit https://highfivesoftware.tk address.

Then I should see two line graphs showing the number of new and total cases divided by days.

Scope

- Build a nice looking Graphical Interface.
- Graphical Interface must be divided by days.
- Graphics must be connected with Database.
- It should work in all browsers.
- It should also work in Mobile.

Pre-Condition

The user must have an internet and device that can access out site.

Acceptance Criteria

Scenario 1: User can successfully enter the website and see graphics

Given I am on my browser Home Page

And I visit https://highfivesoftware.tk address.

And I will successfully enter the website.

Then I see the graphics of Total Cases and New Cases divided by days.

Scenario 2: User can successfully enter the website and see the related country graphic.

Given I am on my browser Home Page

And I visit https://highfivesoftware.tk/tr address or Click to related "Turkey" button on the website.

And I will successfully enter the website.

Then I see the graphics of Turkey Daily Cases and Total Cases divided by days.

Scenario 3: User entered the wrong URL

Given I am on my browser Home Page

And I visit https://highfivesoftware.tk/amd address.

And I get an error message as "Page Not Found Looks like you've followed a broken link or entered a URL that doesn't exist on this site."

And I clicked on the "Back to our site" button.

Then I am on Home page.
